REPORT OF LEE VOLUNTEER FIRE DEPARTMENT FOR 1947

The Lee Volunteer Fire Department responded to twenty-two fire calls during the year of which number ten were for fires in the town. Of this number of fires in Lee, four were for careless use of incinerators, and two were set by children. Actual loss in property for the year would not exceed \$10.

Officers elected for 1948 are: Lloyd Saulnier, chief; Albert Fuller, first assistant; Leon Dudley, second assistant; Charles Brady, treasurer; Oscar Bartlett, secretary; directors, Everett Sackett, Lawrence Hill and Herman Randall.

OSCAR S. BARTLETT,
Secretary.

IN CASE OF FIRE

Call telephone operator and say: "Lee fire department—emergency." Then give name and location of property.

FOREST FIRE PROBLEM SERIOUS

The year 1947 was one of the worst periods of drought and forest fire occurrence in eastern United States history. Lack of water ruined crops, lowered water levels and dried up brooks everywhere. Three months of deficient rainfall and abnormally high temperatures resulted in many fires which were mostly well controlled and kept within bounds. Only the high winds beginning on October 23rd caused a few fires to escape beyond immediate control. These few fires resulted in burning some 15,000 acres and the loss of

63 or more buildings in four New Hampshire towns.

All October fires were costly. They burned deeply in the ground and required day and night patrol of large crews of men until the rains came late in October. Towns which escaped from serious fires might easily have been in the midst of the most serious conflagrations we had.

Governor Dale closed the woods effective at midnight of October 15th. With the blow-up of October 23rd, a second proclamation closed all back roads and authorized towns to inaugurate patrol. The effect of this was to cut down subsequent fires for the rest of the dry period.

Local fire warden forces performed an admirable job to hold the more than 200 fires that occurred during this October period. Many men were taxed to the utmost as the emergency continued. To them and all those who did their work, the people of New Hampshire owe a debt of gratitude. The state forest fire control agency based on local town wardens and town crews wherever adequately equipped rose to the occasion and met the test in whatever town their services were needed.

It is now time to take stock everywhere of our fire fighting facilities for the season ahead and to make them adequate where necessary. To this end town fire plans and training programs for wardens, deputies and other key men in each district are being arranged or in progress. If equipment and tools are insufficient properly to equip the available man power in each community with the right tools for the job, they should be provided for at once. The yearly addition of fire tools to the town supply will generally need to be built up. The state sells tools to the towns and shares one-half their cost. Good equipment is important and can help

greatly to keep both damage and fire costs at a minimum.

For many years we have requested our wardens not to issue burning permits except on rainy days. This regulation will be in effect again this year as it is one of the best means of assuring such fires from getting out of control. Nine out of every ten fires can be prevented, 98 per cent of all fires being due to human carelessness. Be sure to get a permit for any fire in or near woodland when the ground is free from snow. Be sure your fires are always out before you leave them. Help us in getting the traveling public to keep from throwing out lighted matches or cigarettes. Be careful of all fires in or near woodland.

THOMAS J. KING,
District Chief.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Lee:

The program of legislation anticipated a year ago has been enacted and is in operation. Lee will receive this year in state aid the sum of \$4,035.52, or an increase of \$1,818.58 over last year. Besides the new equalization act, which increased state aid in New Hampshire by about 400 per cent, the following laws were passed by the General Court:

To permit the establishment of cooperative school districts.

Increasing the school district debt limit from 2 per cent of the valuation to 5 per cent, or 8 per cent in special cases.

Enabling districts to accumulate a capital reserve fund for improvements.

Improving the teachers' retirement act and admitting school nurse and teachers in approved public academies.

An irksome provision requiring repayment of tuition to the teachers' colleges for graduates not teaching in the state a specified length of time was repealed. Provision is made for scholarships to be granted by the State Board of Education to high school graduates desiring to become teachers and otherwise unable to attend.

Providing for the examination and treatment of problem children temporarily in a receiving home.

Establishing a Director of Nursing Education.

Fostering vocational education through a program of apprenticeship in industry.

This legislation is set forth in full in Institute Circular No. 174 entitled "Educational Legislation of

1947" (State Board of Education, Concord, N. H.)

Further regulations have been made by the State Board of Education as follows:

Minimum Standards for Teachers' Salaries

1. Less than 4 years of college preparation and less than 5 years of experience, \$1,700.

2. Regularly certified, with less than 4 years of college preparation but with 5 years of experience, \$1,800.

3. Regularly certified, with 4 years college preparation but less than 3 years of experience, \$1,800.

4. Regularly certified, with 4 years of college preparation and 3 years of experience, \$2,000.

The effect of the above regulation is already beginning to be felt in the supply of available teachers and candidates for teacher-training.

The regulations governing the approval of superintendents, headmasters, principals, teachers, and other educational personnel in the public schools of New Hampshire have been revised, with the establishment of an advisory board on problems of certification. Certificates hereafter will be for a period of seven years, instead of for life, and will depend for their renewal on the completion of six semester hours of professional study (the equivalent of three extension courses or one full summer school).

Another state regulation provides that schools shall hereafter actually be in session 180 days per year (less 5 days of an intensive professional "workshop" if offered locally). Such weeklong institutes would give opportunity for teachers to satisfy the credit requirements of the foregoing paragraph. The additional requirements in regard to certification and length of school year should be borne in mind in connection with the minimum salary regulation.

The legislature provided for special district meet-

ings in the summer to make revised appropriations necessitated by the new laws and regulations.

Dr. Gertrude M. Lewis, recently appointed state supervisor of elementary education, has visited the grade schools in the district and conferred with teachers.

The present organization of the schools is as follows:

School	Grades	Teacher	Pupils
Town Hall	1-4	Mrs. Mary B. Carpenter	27
Center	5-8	Mrs. Helen Saulnier	29
Total			56

There are six new high school pupils and six elementary pupils for which the district is paying tuition to neighboring districts.

The school building project seems to be in abeyance for the time being. However, it will be necessary to make some provision for housing at the end of the present temporary use of the Town Hall. If a three-room building appears to be too ambitious a project, due to the more elaborate design involved, it may still be possible to use a two-room building by sending grades VII and VIII out of town when the enrollment increases beyond the capacity of two rooms.

The School District of Durham is much interested in such a proposition, in connection with their proposed new building, which will probably be larger than their present needs. There are two other possibilities: sending all pupils out of town (like Madbury) or forming a consolidated district with an adjoining town.

The work of the school nurse, Miss Myrtle Fletcher, R. N. included the examination of individual pupils in school, keeping health records, notifying parents of corrective work needed, home visits, visits of inspection at school, providing first-aid supplies, etc. Spec-

ial activities included the organization of a dental clinic, administering of the Audiometer hearing test, and the accompanying of pupils to physicians and hospitals outside of Lee.

Honor Roll of Perfect Attendance for the year 1946-47: Jerome Canney, Donna Davis, James Munroe, Carol Durgin, Glenna Lemeire, Raymond Munroe.

Respectfully submitted,

CHESTER W. DOE,

January 21, 1948

Superintendent of Schools.
